Local History

Metropolitan Winnipeg

CAPITAL OF THE PROVINCE OF MANITOBA

STATISTICAL INFORMATION

MAIN
Stack Ref.

POPULATION—

Metropolitan Winnipeg 1964 (est.) 503,000
Census, June 1961, 475,989
Winnipeg City, Census, June 1961, 265,429

AIRPORT—

Name: Winnipeg International Airport.
Altitude 780 feet; Commercial class; Public Customs Airport (Day and Night); only 4 miles from business district. Three 2[illegible] feet runways, 7,000, 8,700 and 11,000 feet in length. Operating Companies: Trans-Canada Airlines, Northwest Airlines and private charter. Servicing agencies for itinerant flights: Mid-west Aviation and Bristol Aircraft Servicing.

ALTITUDE—760 feet above sea level

AREA—(Metropolitan) 234.965 square miles

ASSESSMENT—(City)

1958—$404,239,510	1961—$450,663,160
1959—$419,533,890	1962—$484,528,670
1960—$435,444,781	1963—$492,130,540

BUILDING (Winnipeg City)—

Year	Permits	Buildings	Cost
1945	1,930	2,465	$ 7,823,275
1946	2,295	2,788	11,891,200
1947	2,233	3,342	17,490,400
1948	2,175	2,781	18,636,800
1949	2,422	3,144	15,096,900
1950	3,369	4,145	19,460,100
1951	2,940	3,162	16,484,000
1952	3,074	3,603	19,297,700
1953	3,502	3,933	21,868,200
1954	3,258	3,858	35,888,900
1955	3,290	4,131	42,286,300

1961	2,854	2,908	27,851,528
1962	2,960	2,885	34,276,576
1963	2,781	2,787	34,934,753

CHURCHES—

335 representing all denominations

CUSTOMS and EXCISE RECEIPTS—

1958—$47,535,795.11
1959—$52,265,192.36
1960—$52,394,341.58
1961—$50,499,403.62
1962—$48,612,670.14
1963—$50,550,042.83

EDUCATIONAL (Metro Winnipeg)—

Elementary, Junior High, Senior High and Miscellaneous Schools. 10 Colleges, School of Arts, Manitoba Teachers College, University of Manitoba Technical-Vocational School and the Manitoba Institute of Technology.

ELECTRIC SERVICES—

Winnipeg City Hydro
Domestic 150,863 Commercial—22,388
Suburban: (Manitoba Hydro)
Domestic—74,498 Commercial—5,815 Industrial—2,126

FINANCIAL INSTITUTIONS—

Bank of Canada, 6 chartered banks with 122 branches.
Trust companies and other miscellaneous corporations.

FIRE DEPARTMENT (Winnipeg City)—

Officers with 391 firefighters and administrative staff.
Particularly fleet Fire Alarm Boxes.

FORM OF GOVERNMENT—Mayor and Council

The Council is composed of a Mayor and eighteen Aldermen.

GAS SERVICES—

Residential—62,300
Commercial—5,000
Industrial—200
Total—67,500

GOLF COURSES—18

HOSPITALS—

7 hospitals with over 2,700 beds.

HOTELS—

82 in Metropolitan Winnipeg Area.

LIBRARIES—

1 Public Library with 5 branches;
3 School Libraries and 2 Bookmobile (Travelling Library)

NEWSPAPERS—English: 2 daily and 8 weekly

PARKS (Metro)—

There are a total of 273 parks in Metropolitan Winnipeg, 10 of which are over 15 acres. Total acreage of all parks is 2,005 acres. Assiniboine Park the largest, has the only Conservatory and Palm House in the west. Consists of 362 acres.

POLICE DEPARTMENT (Winnipeg City)—

3 stations manned by 430 officers and men, and a staff of 111.
1 ambulance and 1 Patrol Wagon.
14 Motorcycles (solo); 11 servi-cars (3 wheeled-motorcycles) radio equipped; 1 boat and 1 trailer.
26 cruiser cars and chiefs car.

POPULATION BY DECADE (Metropolitan)—

1873	1,869	1956 (Census)	409,687
1880	6,468	1957	425,000
1890	25,002	1958	440,000
1900	50,503	1959	455,000
1910	172,865	1960	461,000
1920	271,958	1961 (Census)	475,989
1930 (est.)	285,000	1962 (est.)	487,000
1941 (Census)	285,356	1963 (est.)	499,000
1946 (Census)	296,997	1964 (est.)	503,000
1951 (Census)	354,069		

POSTAL RECEIPTS—

1958—$8,283,503.12	1961—$ 9,330,627.60
1959—$8,649,226.48	1962—$ 9,777,617.67
1960—$9,015,360.00	1963—$10,087,220.31

RAILROADS—

Winnipeg is served by two transcontinental railroads, the Canadian Pacific Railway and the Canadian National Railways, also the Greater Winnipeg Water District Railway and the Midland Railway. Three railroads supply direct service to the United States — the Soo Line, Northern Pacific and Great Northern. The two transcontinental railways have their Prairie Regional Headquarters and maintain engineering works in Metropolitan Winnipeg.

TELEPHONES—(Metro)

Total 220,117 (as at December 31, 1963)

THEATRES—

25 (including 5 Automobile "Drive-Ins")

TRANSPORTATION—

Metro Transit Commission.
140 Trolley buses; 300 gas and diesel buses.

WATER METERS (Winnipeg City)—56,663

HISTORY

The above is a facsimile of the City Seal, adopted by Council, June 1st, 1874, the motto of which is, "Commerce, Prudence, Industry." The significance of the emblazonry thereon may be described as follows:—

The Buffalo, the hardy, fearless, nomadic monarch of the plains, who had original possession and held sway where the City of Winnipeg now stands.

The Engine, the civilizing mechanism of man's ingenuity, displaced the buffalo, was the forerunner of prosperity, and is the means of social and commercial communication which the City enjoys with the world.

The Sheaves of Grain represent the source from which the prosperity of this City emanated and are emblematic of our City as the Gateway of the Golden West and as the greatest grain centre in the world.

The City of Winnipeg is the capital of the Province of Manitoba, and the Provincial Legislative Building and Grounds are among the most beautiful on the continent.

The name WINNIPEG has the origin in the Indian Cree name given to the lake 40 miles north, meaning "Win," muddy; "nipee," water.

Winnipeg is situated in Latitude 49 deg. 54' N., Longitude 97 deg. 08' W., at the confluence of the Red and Assiniboine Rivers; 40 miles south of Lake Winnipeg and 60 miles north of the boundary line between Canada and the United States of America; almost midway between the Atlantic and Pacific Oceans and at an altitude of 760 feet above the seaboard level of New York.

The composition of the Metropolitan Area is as defined in the Dominion Bureau of Statistics Census for 1961, viz City of Winnipeg, City of St. Boniface, City of St. James, City of East Kildonan, City of West Kildonan, City of Transcona, City of St. Vital, Town of Tuxedo, Village of Brooklands; municipalities of Fort Garry, Old Kildonan, North Kildonan, St. Paul East and St. Paul West, Assiniboia and Charleswood.

On March 26, 1960, the Metropolitan Corporation of Greater Winnipeg was established by an Act of the Manitoba Legislature to bring planned development to the rapidly growing Metropolitan Winnipeg area and to consolidate and improve certain municipal services.

It is the railway centre of Western Canada with all lines passing through it having workshops capable of manufacturing or maintaining all types of equipment.

Winnipeg International Airport located in the adjacent city of St. James and only fifteen minutes from down-town Winnipeg has been called the "Air Crossroads of the Continent." Developed to handle the largest and heaviest types of transports it takes its place among leading airports.

From a Hudson's Bay trading (Fort Garry) in 1870, with a population of 215, Greater Winnipeg has grown to the size and finish of a first class metropolitan area of an estimated 503,000 people. When the City was incorporated in 1873 there were, 1,869 inhabitants. In 1878, steam railway connection from St. Paul, Minn., had reached a point just across the river from Winnipeg, and in 1881 railway communication from the east was established by the Canadian Pacific Railway. With the advent of railway connections a steady stream of travel and trade, with influx of population, was started and has resulted in the building up of a city of a size and importance that is exceeded by only three cities in the Dominion of Canada.

ORIGIN AND BACKGROUND

The history of Winnipeg is, in effect, the story of transportation and trade in Western Canada for the beginnings of the City and its environs lie back in the lusty days of the fur trade and the hardy voyageur. The eighteenth century French explorer, Sieur de la Verendrye, was probably the first white man to set foot in this region. Here, he established Fort Rouge about the year 1737.

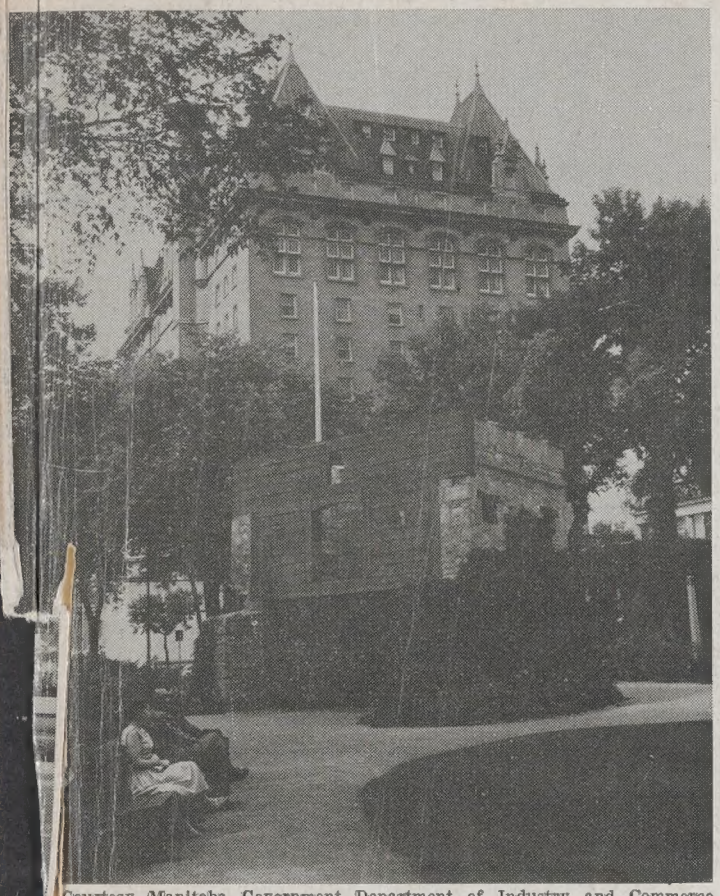
This location became of strategic importance in the fur trade, as the easiest method of supply and communications south from the Hudson Bay and west from Montreal was by water route. In 1812, Lord Selkirk, a Scottish nobleman, obtained a vast land grant on the Red and Assiniboine rivers for the purpose of settlement.

Fort Garry, built in 1835, was the jumping off spot for the fur trader pushing west and north. Later, it was the base for the settler migrating into the vast plains and rolling parklands.

The colony developed and the line of communications gradually changed from the Hudson Bay route to follow the Red River south to the United States. By 1859 the Hudson's Bay Company was freighting in goods from the city of St. Paul in the State of Minnesota. In that same year the first steam boat service commenced on the Red River from Fort Garry to Georgetown, Minnesota, at the head of navigation on the river. The first railway engine in the west came by barge over this route in 1877.

The Province of Manitoba was formed in 1870 with its capital at Fort Garry. The district around Fort Garry came to be known as Winnipeg, and under this name it was incorporated as a city on November 8th, 1873, with a population of 1,869. Development of the new city was rapid.

The first shipment of wheat took place by river boat in 1878. In the fall of that year the first train ran between St. Boniface, across the river from Winnipeg and St. Paul, Minnesota, providing rail transportation with eastern Canada, via the United States. By 1885 the first through train on the new transcontinental Canadian Pacific Railway line from Montreal arrived in Winnipeg.



There was a gradual flow of settlers into the west, but the flood tide came between the years 1900 and 1913, with a great influx of European and American immigrants. In the period of ten years from 1901 to 1911 the population of the metropolitan area increased by more than a hundred thousand. The requirements and demands of the increasing western population necessitated increased facilities for trade and commerce and for the gathering and distribution of capital. As early as 1884 there were 75 wholesale and jobbing houses in Winnipeg.

The area had become the distributing and commercial centre of the west and then, to meet the needs of commerce and the grain trade, it became the financial centre.

The growth of manufacturing and processing industries commenced as early as 1825, with the erection of a windmill to grind flour. By 1831 the colony was self-supporting in this commodity, and ten years later there were 18 windmills and two water-driven mills in the district.

The present flourishing needle trades industry commenced about 1895. Between 1900 and 1906 several small factories were in operation fabricating overalls, workshirts and heavy knitted goods, in order to satisfy the demand for sturdy, warm work clothing. This industry has expanded to the point where its products such as ladies' suits and sportswear compete with the best products of other North American garment centres, both in style and quality of workman

The extensive meat packing industry grew from small meat processing plants set up in the 1890's. The opening of the St. Boniface stockyards, largest in the British Empire, in 1913, gave impetus to the industry, and by 1925 slaughtering and meat packing was the leading industry.

Courtesy Manitoba Government Department of Industry and Commerce

OLD FORT GARRY GATE—A Historical Landmark

From a small beginning some 50 or 60 years ago, industry in the opolitan area has flourished and developed until today there are oximately 1150 manufacturing and processing establishments ucing a large variety of commodities.

TRANSPORTATION

The position of the Metropolitan Area of Winnipeg in the geohical centre of Canada is such that it is the focal point for all , rail and air transportation routes crossing the dominion. Its on in the narrow area between Lake Winnipeg and the internal border results in the convergence of rail and road routes gh the Winnipeg district. As a consequence, Winnipeg is one nada's great railway centres. Similarly, the area is an impor- ir centre being at major aerial cross roads of the North Amer- ontinent. The Winnipeg district owes its dominant position West to the excellent transportation facilities with which it owed. From Winnipeg there radiates a network of 11 provin- ain highways leading to all sections of the province and con- g with major routes of adjoining provinces and states. All se roads are concrete or asphalt. These roads carry all-year- traffic or public passenger and freight transit companies.

ERVICE—

e Union Bus Terminal, located in the downtown shopping dis- f Winnipeg, provides centralized terminal facilities (i.e. load- atforms, rest-rooms, baggage service, restaurant, telegraphs, ephone service), for passengers on the bus lines operating in t of the Metropolitan Area. From the Union Terminal there verage of 90 scheduled trips every 24 hours. Main line runs 2 trips daily south to United States points (i.e. Minneapolis); daily west to Vancouver and intermediate points; 2 trips Fort William, Port Arthur, Toronto and Montreal; 2 trips Flin Flon; and 3 trips weekly to Red Lake mining district rio. Express for rural areas is carried on most runs.

w bus terminal, also in downtown Winnipeg, is scheduled June 1, 1964.

MOTOR TRUCK—

Motor carrier services in the Metropolitan area facilitate speedy haulage of freight to and from all parts of the province. There are over 70 firms operating under Interprovincial Licenses, some 10 firms operate car transports.

Daily service to most towns within the province is provided except in the case of the most northerly districts where the service is tri-weekly. Over and above the numerous transfer and delivery units working in Metropolitan Winnipeg there are 410 licensed carriers maintaining service from country points into the Winnipeg district with over 1100 vehicles.

AIR TRANSPORT—

The Commercial Airfield for the metropolitan area is the new Winnipeg International Airport, located in the suburban city of St James, four miles west of the downtown business district. The Airport is under the control of the St. James-Winnipeg Airport Commission. Convenient bus and taxi service connect it with all sections of the Metropolitan Area. The airport covers approximately 5000 acres and has three concrete runways.

The control tower operates on a 24-hour basis. Complete aircraft engineering and maintenance service is available at the field. Customs facilities are maintained at the field for aircraft coming in from the United States. On an average day there are a total of 500 flights in and out of the airport, 50 of which are scheduled arrivals and departures. Approximately 450,000 air passengers travelled from the Field annually. The following schedule airlines operate from it:

Trans-Canada Air Lines—transcontinental flights carrying mail, passengers, and express. The Winnipeg Metropolitan Area is Canadian Operational Headquarters for T.C.A.

TransAir Limited — connecting Winnipeg with Manitoba points carries mail, passengers and freight. Headquarters is situated here.

Canadian Pacific Air Lines—passenger, express and mail service on a transcontinental basis.

Northwest Airlines, Inc.—connecting Winnipeg with United States centres, via. Minneapolis. Mail, passengers and express. Canadian headquarters is located in Winnipeg.

Charter air service, using float planes, is available from Trans-Air Limited, Riverton Airways Ltd., Airways Limited, Ilford Airways which have head offices in the City of Winnipeg. Charter land plane service is to be had from T.C.A., C.P.A., Graffo Flying Service and Midwest Aviation.

Autair Helicopter Ltd. and Midwest Aviation provide helicopter service from Winnipeg to every point in Manitoba.

WATER TRANSPORT—

The Red River, flowing from south to north, is navigable by commercial river and lake boats from Winnipeg north to Lake Winnipeg. This route is used to haul lumber and fish from the northern lake regions and to supply communities and trading posts on Lake Winnipeg. The navigation season lasts from the beginning of June until the end of October.

RAILROAD FACILITIES—

As the railroad centre of Western Canada, the Metropolitan Area is well supplied by rail service. The trains of seven companies operate in and out of the region, viz., Canadian National Railways, Canadian Pacific Railway, Greater Winnipeg Water District Railway, Great Northern Railway, Northern Pacific Railway, Soo Line Railroad, and the Midland Railway. In order to expediate passage of freight and passengers in the United States, the following American companies maintain ticket and/or freight offices in Winnipeg: Burlington Lines, Chicago Great Western Railway Co., Chicago, Milwaukee, St. Paul and Pacific Railway Co., Chicago and Northwestern Railway System, Chicago Rock Island and Pacific Railway. The Prairie Regional headquarters of the Canadian Pacific and the Canadian National Railways are located in Winnipeg. Both of these large transcontinental lines operate extensive roundhouse and repair shops in the area. They maintain large freight marshalling yards. The Canadian National and Canadian Pacific Railway yards have a combined area of 2,800 acres. About 28,500 cars can be accommodated on the 755 miles of track. An average of 135 passenger and freight trains arrive and depart in a day from the metropolitan area. This is equivalent to an average [illegible] that are handled every 24 hours. The record [illegible] in one day is: C[illegible]; 5,370 and C P [illegible]

Courtesy Manitoba Government Department of Industry and Comm

THE HEART OF WINNIPEG BUSINESS CENTRE, CORNER OF PORTAGE AND MAIN

INTERNAL TRANSIT SYSTEM—

The Transit Department of the Metropolitan Corporation of Greater Winnipeg operates a modern transit system with a fleet of 433 vehicles made up of 140 trolley buses and 300 gas and diesel buses. In order to promote greater efficiency the Transit Department has installed a short wave radio system with two transmitting stations on one network and 40 mobile radio sets; 21 are devoted to supervising all operating motive units and traffic and 19 to streets. This combination and close co-ordination between streets and transit has resulted in one of the most efficient transportation systems in Canada.

TAXICAB and U-DRIVE SERVICE—

In 1963 there were 121 licensed taxicab operators in Winnipeg. These individuals and companies maintained a fleet of 400 vehicles. Over 90% are equipped with two-way radio communication systems to provide a more efficient service.

There are 18 U-Drive companies engaged in the Metropolitan Winnipeg Area. They operate a fleet of over 400 vehicles.

WAREHOUSING and STORAGE—

The Winnipeg area, as the largest distributing and warehousing centre in Western Canada, has ample facilities for storage and forwarding of dry merchandise, cold storage and household effects. Ten storage firms handle dry merchandise with charges based either on space or on the unit involved and the type of commodity. Cold storage facilities with freezing and /or holding service are available from six firms. Cold storage charges are based mainly on weight and storage time. Fourteen firms provide storage service for household effects. Thirteen forwarding agents operate in the Metropolitan area, offering pool car service in most cases. Forwarding charges are on a flat rate basis depending on the article [illegible] of shipment.

NATURAL RESOURCES AND RAW MATERIALS

The rich Red River Valley land of the surrounding ar a clay loam with an alluvial silt top soil. It produces suc or grain crops as wheat, oats, barley, and flax. There is als n- siderable market gardening industry, which supplies th ge urban domestic market and provides vegetables for the ng and food industry. The large dairy herds of the nearby ng districts form a major source of the Metropolitan fluid p- ply for domestic consumption and for ice cream manufac

The varied industrial and processing establishment he area draw on raw materials from every part of the Pr of Manitoba, as well as beyond its borders. Basic material a hand include, sand, gravel, clay, lime, gypsum, and thus Tyndall limestone for the building and construction y. Bentonite clay, an important bleaching and clarifying a il refining and a filtering agent in the packinghouse i is produced in southern Manitoba and refined in Winn he metropolitan fur garments industry fabricates fur coat c- kets from skins which are produced, dressed and dyed he province.

Secondary resources from several basic Manitoba es are utilized by many allied secondary industries. F e, breweries in the Metropolitan area depend on the lo g industry for malt produced from Manitoba grown y. Manufacturers of barley products and confections use ct of a nearby sugar refinery. Stock feed processors e valuable meal by-product from vegetable oil processi e vegetable oil itself constitutes a main ingredient i l products as salad oil and margarine. From Manitob 's forests come the materials for manufacturing the p the printing, publishing, and paper box industries in the area.

CLIMATE

The climate is of the inland continental variety with wide seasonal variations. Summers are warm with cool nights. The winter is fairly cold with a dryness which makes the climate invigorating.

Years on Record	Average Annual Precipitation
90	21.19" with 9.62" in growing season

Mean Min. Temp.		Mean Max. Temp.		Mean Annual Temp.		Av. Length of Growing Season
Jan.	July	Jan.	July	Jan.	July	115 days using
16.0	60.6	13.0	75.5	0.1	68.3	33 deg. frost pt.
(1875)	(1884)	(1944)	(1936)			

Prevailing winds, winter and summer, North-West.

UTILITIES

POWER—

A factor of major importance to modern industry is the supply and cost of power. In this respect the Metropolitan Area of Winnipeg is advantageously situated. Hydro-electric power is supplied to the area by two organizations: The City of Winnipeg Hydro-Electric System distributes power in Winnipeg proper, while the Manitoba Hydro distributes power in the surrounding municipalities. The power supplied by these utilities is from hydro-electric generating stations on the Winnipeg River and three thermal stations located in Winnipeg, Brandon and Selkirk. Power shortages are unknown as development of power production has kept well in advance of industrial and commercial requirements. The cost of hydro-electric power for industrial or commercial uses in the Metropolitan area is among the lowest in Canada. Large consumers may receive a special discount subject to negotiations.

The following current is available for commercial and industrial services: Alternating current, 60 cycle, 1 and 3 phase: primary supply at 2,400 and 4,160 volts; secondary supply at 115/230 and 550 volts.

The City of Winnipeg Hydro-Electric System distributes power in Winnipeg proper, while the Manitoba Hydro distributes power in the other municipal corporations comprising the Metropolitan area.

WATER—

The water supply to the Metropolitan Area of Winnipeg is administered by the Metropolitan Corporation of Greater Winnipeg. The water is obtained from Shoal Lake, an arm of Lake of the Woods, approximately 100 miles east of Winnipeg. The source of supply provides limitless water without fear of drought conditions. A concrete aqueduct from the source to a point eight miles east of St. Boniface has a daily capacity of 85 million gallons. Firm pumping capacity to the Metropolitan area is 130 million gallons per day. Average daily consumption in 1961 in the Metropolitan area of Winnipeg was 41 million gallons. From an industrial standpoint the water supply is considered ideal, there being few industrial processes for which further treatment of the water would be necessary.

SEWAGE—

The Metropolitan area of Winnipeg is served by a central sewage system and sewage treatment plant, administered by the Metropolitan Corporation of Winnipeg.

FUEL

The industrial fuels used in the Winnipeg area are coal, petroleum and natural gas. All are imported from outside the province.

COAL—

Roughly 50% of the coal used in Manitoba is Lignite, from the nearby coalfields of Southern Saskatchewan. The remainder is bituminous from Alberta and some anthracite from the United States. The following indicates the approximate calorific value of certain common types in industrial use.

	B.T.U. value
Lignite	6500 - 7500
Greenhill Stoker (Bituminous)	12,000
Elkhorn Stoker (Bituminous)	14,000

CENTRAL HEAT—

The downtown business district of the City of Winnipeg is serviced with central steam heat, supplied by a city-owned utility. In addition, residential areas in the southend of the city are similarly supplied by a private corporation.

FINANCIAL INSTITUTIONS

As the financial centre of Western Canada, the Metropolitan area has many facilities for the organization and distribution of credit the majority of which are located in the city of Winnipeg.

BANKS—

Canadian chartered banks, which are subject to strict government regulations and supervision, operate on the branch banking system. These factors minimize banking failures, making the Canadian system one of the most stable in the world.

Six of Canada's chartered banks operate a total of 122 branches in the Metropolitan area. These branches are strategically located to handle the needs of the public, serving not only the highly developed commercial areas but also the outlying residential districts in their widespread and varied demands.

The steady industrial growth of Winnipeg has meant a constant increase in potential commercial demand for banking loans. Small and personal loans receive the same particular attention of Branch managers as the larger credits that come before Superintendents and Supervisors of the various banks in Winnipeg.

In Winnipeg, one large banking operation that recurs annually is the supplying of credits and cash to move the western grain crop to market. Such requirements can, in some seasons, reach the hundred million mark.

The banking function, involving the purchase of documentary domestic and foreign bills and the sale of exchange payable in any recognized free trading center in the world is increasing daily. This reflects the importance of grain business and the expansion of grain business and the expansion of other commerce to national and international markets.

Bank clearings in Manitoba, over $21.5 billion dollars annually, represents almost half of all clearings in the three Prairie Provinces.

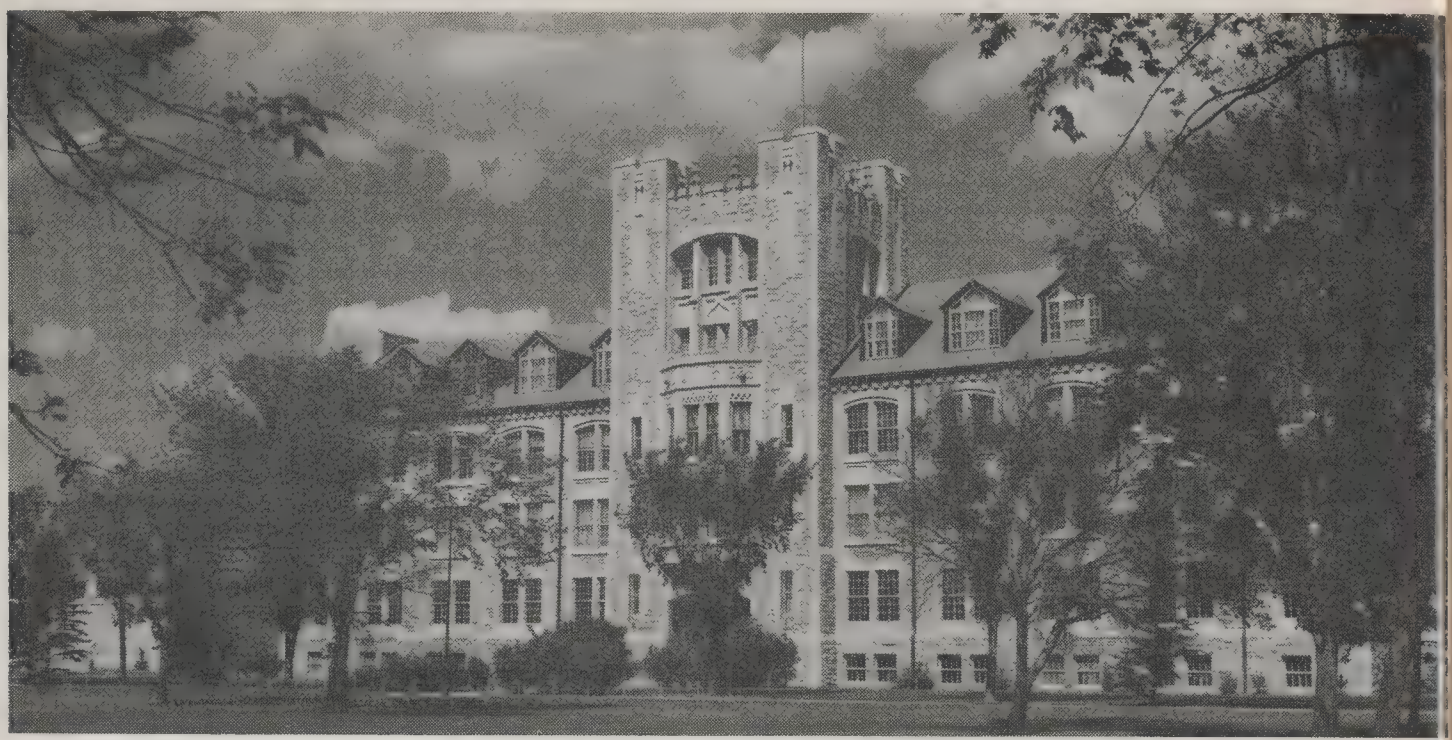
The Bank of Canada, the Canadian central bank, maintains a central agency in the City of Winnipeg. The Bank is government owned and controlled, functioning largely as a regulatory body.

The Industrial Development Bank, a subsidiary of the Bank of Canada, has a regional office in Winnipeg. The function of this organization is to provide financial assistance to smaller industrial enterprises which have reasonable prospects of success. The Industrial Development Bank supplements the activities of other lenders, providing capital assistance.

The Manitoba Development Fund, set up by the Manitoba Government to provide financial assistance to new industry, and already established industries. The Fund also financially assists Community Development Corporations to establish new industries in rural areas.

INVESTMENT and STOCK BROKERS—

43 investment dealers and stock brokers provide Metropolitan Winnipeg with a complete investment service, buying and selling bonds and debentures, underwriting new security issues and providing investment information. There are 31 share-holder members and 6 associated non-share holder members of the Winnipeg Stock Exchange. Most firms have representation on all the larger stock Exchanges of North America.



TRUST, LOAN MORTGAGE and FINANCE COMPANIES—

About 70 organizations of this nature are located in the Metropolitan area, of which 11 trust and loan companies have their head office in the City of Winnipeg. These firms provide a variety of financial assistance to business men and to the general public. In addition to acting as trustees and agents for individuals and corporations, most of the trust and loan firms provide a savings branch service and a safety deposit department.

The facilities of the Winnipeg Stock Exchange are used mainly in trading in the stocks and securities of local companies.

INSURANCE—

The insurance service is well developed and some 313 companies are represented, providing service in all fields of insurance. The City of Winnipeg is the head office of four life insurance companies, Sovereign, Monarch, Canadian Premier and Great-West Life—one of the largest in Canada. There are 17 companies engaged in other forms of insurance business, also with their head offices in Winnipeg. Approximately $190 million of ordinary life insurance is sold annually in the province.

ONE OF MANY FINE UNIVERSITY OF MANITOBA BUILDINGS

EDUCATION

A major requisite for progressive industrial and commercial concerns is the existence of sound academic and properly equipped technical training establishments. The public schools, colleges and technical establishments in Metropolitan Winnipeg are noted for the maintenance of high academic standards. Excellent instruction is given in all public schools up to and including senior matriculation.

Winnipeg has an expanding school system which is witnessing changes in physical growth and in curriculum content. There has been a general broadening of the educational program, and there are now four courses available in the high schools. All high school courses are built around a core of academic subjects—English, Mathematics, Science, and Social Studies. Four courses—academic, commercial, home economics, and industrial arts—are built around these basic subjects. The academic course is the usual matriculation course and is required for university entrance. In each of the other three courses, the students become acquainted with the basic tools and techniques, and are made aware of the opportunities which exist in the various fields or crafts under study. In the senior year 80% of the school time is assigned to the main body of studies, and 20% to the optional course.

A different course of study is offered at the Technical-Vocational High School in Winnipeg. This is a new school and offers industrial and home economics courses. This school gives 50% of the time to the industrial courses and the remaining 50% to academic subjects. This increased time allowed to the industrial courses, gives the student the equivalent of several months, and perhaps a year, of apprenticeship training, and is taken into account when he becomes apprenticed to a trade. In September, 1963 this school had an enrolment of 1,350 and offered courses in the following fields: Auto and Power, Graphic Arts, Drafting, Commercial Art, Metal, Electrical, Home Economics, Industrial Food Service and Commercial Courses.

The content of these courses is under revision, and both management and labor are co-operating with the Departments of Labor and Education in providing courses to meet the needs of the students and of industry.

The Manitoba Institute of Technology, constructed to accommodate 2,000 students, began instruction in 1963. The trade classes, formerly held in Manitoba Technical Institute, have been moved to the trades school section of the Manitoba Institute of Technology. Training in the following advanced technologies commenced in September, 1963: electrical technology, electronics, mechanical technology including design and engineering of machines, civil technology including concrete and steel structural work, hydraulics, bridge and highway design, medical laboratory, and X-ray technology. In addition industrial and business teacher training is provided as well as accountancy, secretarial science and assistant-librarian courses. Entrance prerequisite to the advanced technology courses is high school graduation.

The trades school section includes apprenticeship training in 14 designated trades including refrigeration, plumbing, machine shop, steamfitting, automotive, autobody, motor winding, sheet metal, bricklaying, carpentry, construction, electricity, factory woodworking, painting and decorating, and plastering. "Pre-employment" courses are provided in 15 trades including drafting, electrical appliances, commercial cooking, baking, radio servicing, meat-cutting, television, radio operators, diesel mechanics, welding, watch repairing, upholstering, commercial courses, barbering, hairdressing and beauty culture.

Vocational courses in high schools and in the Manitoba Institute of Technology receive financial support which is shared by the Dominion and Provincial Governments under terms of the Vocational Training Co-ordination Act of 1942.

The student entering the University of Manitoba, which is situated in Fort Garry, has the choice of a full program in almost all academic and professional fields. Degrees may be obtained in Arts; Science; Commerce; Civil; Electrical and Mechanical Engineering; Medicine; Dentistry; Architecture and Interior Design; Agriculture; Law; Home Economics; Education; Social Work and Theology. Affiliated colleges are located in Winnipeg and in the city of St. Boniface. Teacher training for those with matriculation qualifications is provided by the Manitoba Teachers College situated in the Town of Tuxedo.

Training and education are not confined to day classes and facilities for adult education in evening classes and institutes are many and varied. As part of the public extension system, the University of Manitoba conducts the Evening Institute, consisting of classes of an academic and practical nature, conducted by competent instructors. The Winnipeg School District also provides evening classes for adults in academic, technical and commercial subjects. For this purpose the shop and classroom facilities of nine schools are used and the courses are made available to residents of surrounding municipalities. The Manitoba Technical Institute also maintains classes of evening instruction. During the winter, 18 courses are offered covering mainly trade improvement. Any pertinent course of instruction requested by a group will be given at the Institute. The Manitoba Labour Institute offers expert instruction in Economics, Law, Public Speaking and English. The Institute is sponsored by the Provincial Department of Education in conjunction with Trades Union Organizations.

Over and above the public schools and colleges there are many private organizations providing instruction in academic, trades, commercial, recreational and cultural subjects. Forty-five schools, are registered under the Trade-Schools Regulation Act.

The building program for Winnipeg City Schools has centered around the problems of elementary accommodation in areas where extensive residential construction has been in progress. Winnipeg School Division number 1 has a teaching staff of 1,898 and an enrolment of 47,602 with over 47,500 additional students registered at suburban schools.

PROVINCIAL LEGISLATIVE BUILDING

LABOUR

Employment in the Metropolitan area of Winnipeg was not subject to wartime and post-war fluctuations, and Winnipeg was the major industrial city in Canada showing an appreciable gain (15.9% at July 1, 1948) in employment over the same date at the wartime peak year of 1943. The employment index in September, 1962 was 114.7 in Winnipeg based on the 1949 figure as 100.

SUPPLY—

The Census of 1951 showed that the employed force in the Metropolitan Winnipeg area for all occupations numbered 140,740, composed of 96,372 male workers and 44,368 female workers. By comparison, the Census of 1961 placed the employed force in the Metropolitan area at 178,219 male and female. The expansion of manufacturing and commercial establishments, along with the diversity of occupations, has tended to attract numbers of younger workers from the rural areas and smaller centres.

In order to channel workers into vacancies, the National Employment Service, a Federal Department, maintains two offices in Winnipeg and one in St. Boniface. In addition there is an executive and professional branch in the City of Winnipeg. The Regional Office of the Prairie Region is also located in Winnipeg. National Employment Service officers carry out the registration of high school students and University students during the winter months for employment in the summer and upon graduation.

TRAINING—

As indicated in the Section on Education, present training facilities and the projected expansion of these facilities are designed to ensure a steady flow of well trained technicians and artisans into the working stream in order that the requirements of expanding industry and of new establishments are satisfied. In this respect both industry and labor are co-operating with the training units to an unprecedented degree. In some cases interested industrialists have set up scholarship funds to assist worthy trainees. This is especially true of the garment industry.

LABOUR-MANAGEMENT RELATIONS—

The incidence of strikes for the Metropolitan area is among the lowest for cities in Canada. Excellent employee-management relations are in evidence, not only in the Winnipeg region, but also throughout the rest of the Province.

DEVELOPMENT OF GREATER WINNIPEG RESIDENTIAL AND INDUSTRIAL SITES

The population of Greater Winnipeg is growing currently at the rate of some 10,000 people annually. By 1986, it is expected that there will be about 900,000 people in the urban area — or 400,000 more than at present.

The single, most important task of the Metropolitan Corporation of Greater Winnipeg is to plan adequately for this anticipated growth and to provide essential services as required for the expanding areas. To meet this requirement, the Corporation is preparing a Development Plan which, when enacted by the Metropolitan Council, will cover development for a period of the next 25 to 30 years.

The key to this Plan is people. Estimates have been prepared of the probable density of population in specified areas. On the basis of these projections, various areas have been reserved for future residential, commercial, and industrial development, and plans are being completed to provide future roads and bridges, water and sewage facilities, park space, schools, playgrounds, shopping centres, and so on. The Plan will be accompanied by specific by-laws on zoning, building codes, and the subdivision of land.

The Development Plan will not be a rigid document, however. Planning is a continuing process. The Greater Winnipeg community will grow and circumstances will change so that all plans must be constantly under review. The Plan itself is concerned with setting the ground rules for future growth. Once these have been established, many individual projects, such as parks, sewage, water, roads and bridges, and the creation of residential and industrial areas can be fitted into the general pattern of development, and priorities for this development can be estimated.

A feature of the Development Plan is the proposal to reserve certain agricultural land for future residential or industrial use. The specific reservation of such land will give citizens an opportunity to determine more precisely their own personal plans and to safeguard them against the imposition of industry alongside their own residential area.

Greater Winnipeg, at present, has some 21,500 acres of land zoned for industrial use, and some 8,500 of these acres are vacant. Indications are, however, that some of this vacant acreage is not suitable for industry and, therefore, unlikely to be developed for such purposes. Furthermore, although industrial areas are distributed in different parts of the metropolitan community, the Development Plan, as drafted, does not attempt to provide each city or municipality with its own industrial area. Rather, it proposes that industrial expansion should be directed to areas which are most suitable in terms of servicing, proximity to roads and railways, and which do not impinge on current or proposed residential areas.

In brief, the Development Plan is a chart for the orderly economic, and aesthetic growth of the Greater Winnipeg community. By the terms of the Metropolitan Winnipeg Act, it is required to be made a legal document through the enacting of by-laws by the Metropolitan Council. As such, the Development Plan is the foundation and framework for all activity by the Metropolitan Corporation and directly or indirectly it affects every citizen of the urban community.

PRINCESS ELIZABETH HOSPITAL, WINNIPEG

RECREATION AND CULTURAL FACILITIES

For the dweller in the Metropolitan area, whether inclined to ...nuous athletics or to milder intellectual pursuits, there is am... recreational scope. The facilities range from the Red River ...h its rowing and canoe clubs to the splendid Civic Auditor... in the heart of Winnipeg, which houses the provincial ...seum, an art gallery and two concert halls. The larger of ...se halls, seating over four thousand people, is the scene of the ...ual Musical Festival, which ranks among the largest in the ...rld. Here also perform many of the world's great artists in ... Celebrity Concert Series, and here one may listen to Winni... 's own Symphony Orchestra. The Winnipeg municipal thea..., the Playhouse, has many forms of entertainment, including ...deville, musical shows and dramatic productions of amateur ... professional companies, and performances of the Royal Win... Ballet, one of Canada's leading companies. Dramatic Per...mances are played many weeks out of the year by semi-pro...sional and amateur groups at the Manitoba Theatre Centre. ... the Metropolitan area there are 25 theatres, including 5 "drive-... open-air theatres.

All manner of sport facilities, spectator and participant, exist ... the district. Ice hockey is the outstanding winter sport, and ...ro Winnipeg has several leagues, ranging from playground ... semi-professional. From the area come many of North Ame...'s outstanding hockey professionals. Curling, another favorite ...ter sport, has many adherents grouped into 21 curling rinks ...rating in the area. The Annual Winnipeg Bonspiel is consid...d the world's largest.

In the field of organized family recreation, the Metropolitan ...ea is leading the rest of Canada. There are 70 local community ...ubs in existence, with several in the process of formation. These ...ubs have supervised recreation and social activities and many ... them have a program of handicrafts and hobby shops for ...dults and juveniles. Other local organizations which have sup...lementary or complementary programs to the community clubs ...e YMCA, YMHA, YWCA, Winnipeg Winter Club, Home nd ...chool Associations, and many church groups.

The Winnipeg district has over 1,386 acres of land distributed ... approximately 102 public Parks, squares and athletic fields, and ... undeveloped sites. These range in area from a fraction of an ...re to the large 296-acre Assiniboine Park, with its lovely flower ...ardens, lawn tennis courts, cricket pitches, Zoo, Conservatory, ...alm House and refreshment pavilion.

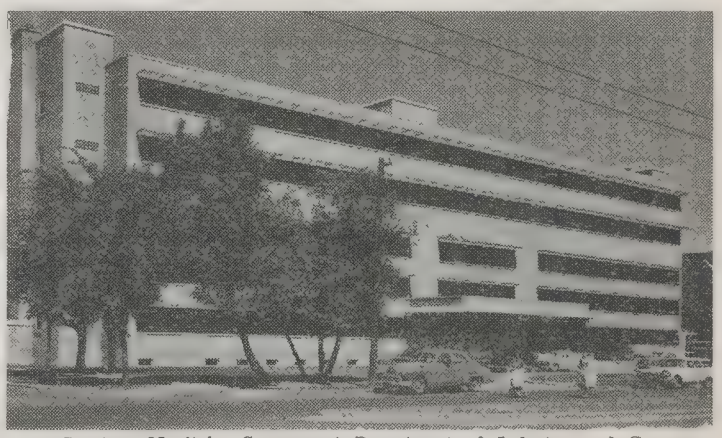
A list of facilities would include:

16 golf courses
21 lawn bowling associations
23 shooting clubs
1 ski club
11 riding academies
30 indoor bowling establishments
8 badminton clubs
1 roller skating arena
1 indoor skating arena
1 race track
2 go-cart racing tracks
1 stock car racing track
4 rifle and gun clubs
1 squash racquet club
1 archery club
2 Yacht clubs

In addition Greater Winnipeg is well situated with regard to summer resorts on lake and stream, with excellent hunting and fishing.

TOURIST INDUSTRY

The results of the Provincial Bureau of Travel and Publicity of the Department of Industry & Commerce, 1959 tourist survey, indicate that over 90% of the American tourists entering Manitoba pass through Winnipeg. 1963 estimates indicate that 1,455,000 tourists visited Manitoba, their expenditures totalled approximately $42.4 million.



Accommodation for the travelling public is provided by 82 hotels with approximately 3,600 rooms with a bed capacity of approximately 6,000. The larger hotels have excellent facilities for convention purposes. Approximately 36 motels and motor hotels are in the area with 1,088 units and accommodation for 2,700 plus.

SOCIAL AMENITIES

HOSPITALS—

Hospital facilities include 7 general hospitals with a total bed capacity of 2,690. The total staff is approximately 6,100, including student nurses. The diagnostic facilities in Greater Winnipeg are on a par with the larger North American Centres.

In addition, a large regional veterans hospital with bed capacity of 700 is located in St. James. There are two hospitals for contagious and chronic diseases with bed capacity over 620 and a staff of 950. A new rehabilitation hospital containing 220 beds was opened in 1962 which includes a tuberculosis treatment centre.

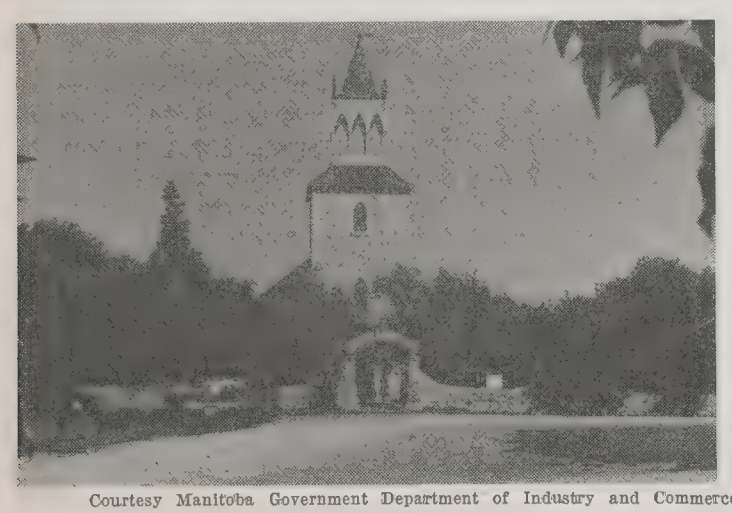
Courtesy Manitoba Government Department of Industry and Commerce

MATERNITY PAVILION, GENERAL HOSPITAL, WINNIPEG

LIBRARIES—

The libraries consist of one main library and five branch libraries with special boys and girls' departments in four Winnipeg Schools and two bookmobiles.

The libraries contain 290,000 volumes which are at the service of any resident of the city. The reading rooms, which are open to all comers are stocked with a good selection of daily and weekly newspapers and with all the leading magazines published in the English language. The main library contains a film and a phonograph record department which has 1,158 films (owned by library) and some 11,000 records which are loaned on a rental basis. Other libraries in the area include the Provincial Library in the Legislative Buildings, a free reference Directory library, libraries of the University of Manitoba and affiliated colleges, St. Boniface Public Library (Main and two branches), The St. James Public Library, The St. Vital Public Library, The Transcona Public Library, Fort Garry Library, Henderson Regional Library, West Kildonan Library and three ethnic group libraries.



Courtesy Manitoba Government Department of Industry and Commerce

ST BONIFACE BASILICA—Stands on the site of the first Roman Catholic mission in the west, built in 1818. On the eastern bank of the Red River, the towering, Romanesque structure dominates the "Cathedral City."

RELIGIOUS ORGANIZATIONS—

Nearly all major religious denominations are represented in the 335 churches and missions in the Metropolitan area. The varied church organizations play an important part in the social life of the community and reflect the cosmopolitan nature of the population. In the City of St. Boniface is located the twin-spired Cathedral, now a Basilica, made famous by the Poet Whittier.

Courtesy Manitoba Government Department of Industry and Commerce

OLD ST. ANDREWS CHURCH

SERVICE ORGANIZATIONS—

Service leagues, clubs, fraternal and sorority organizations a all very active in performing service to the community in ma phases of activity. Approximately 100 such organizations exist the area, each organization having several branches.

HOUSING—

Following the war the Winnipeg area, in common with oth large urban areas of Canada, experienced an acute housing sho age. Since 1951 increased building activity has produced a to of 40,000 dwelling units, including wartime housing, integrati schemes, apartments and other housing. The present ratio is house to every 3.4 persons.

POPULATION AND MARKETS

In total population Metropolitan Winnipeg is the largest the urban areas of the three Prairie Provinces, and it is fourth largest urban area in Canada. The 1961 census of popu tion showed it as 475,989, and now is approximately 503,000.

The data on population as outlined above indicates the imm diate retail urban market.

Three-quarters of retail sales are accounted for by stores the General Merchandise, Food and Beverage and Automot Groups among the metropolitan municipalities. Retail sales the General Merchandise Groups are a larger proportion of to sales in the metropolitan area than they are in the Provin This is primarily due to sales in the Automotive Group outs the City.

The importance of Winnipeg as a retail centre is emphasi by the fact that retail sales are 65% of Manitoba's, although p ple living in the metropolitan area receive about 48% of the pr ince's personal income. The concentrated market for consur goods is further emphasized when it is considered that sto within 100 and 150 miles of Winnipeg's had sales in excess of and 501 million dollars respectively at the time of the last Cen of Distribution. The fact that Greater Winnipeg's retail sales larger than those for either of the provinces of Newfoundla Prince Edward Island, or New Brunswick and are almost equal those of Nova Scotia, is a further indication of the extent of market. In 1961 retail outlets recorded estimated sales of $5 000,000.

Statistics are not available for the wholesale trade in the wh metropolitan area, however, data on the cities of Winnipeg St. Boniface (which represent more than 95% of all wholes trade in the metropolitan area) show that the total volume of 1,122 establishments was $1,828,545,800 in 1951. This was 40% the wholesale sales for all three prairie provinces and was 89. of the volume of wholesale trade for Manitoba.

Winnipeg is surpassed by Vancouver only in the West Montreal and Toronto in the East as retail sales markets.

MANUFACTURING

The manufacturing industries in Metropolitan Winnipeg one of the most important factors in its economy, being second largest individual source of employment. According to 1961 Census, the manufacturing industry provided employment 38,537 persons. The largest employment group was the wholes and retail trade employing over 41,000 persons.

The value of manufacturing production in Metropolitan W nipeg in 1961 was $634,969,000 with payrolls of $135,607,000.

Much of the Metro Winnipeg's success as an industrial c tre lies in the diversification of its industry which is unsurpas by any comparable city in Canada. One of its chief assets is excellent relationship which exists between management labor, an enviable situation which has existed for 25 years.

The industrial picture of the metropolitan area is one of c tinual change and dynamic progress. Every year new industr are established and new products introduced.

The prospects for further industrial expansion are brig Here, are all the modern facilities needed by a large manufact ing centre: good transportation, excellent water supply, am electric power at reasonable rates, and a good supply of skil labor.

The central geographical position in a rich agricultural a bounded by a northern section abundant in natural resources, p ticularly minerals, makes Metro Winnipeg a city with an en ble future.

The fast-growing oil fields in southwestern Manitoba are rapidly increasing the importance of our oil industry. Total number of wells actually producing at the end of 196[illegible] was 745 and the production in the year was 3,926,683 barrels. The capacity of Manitoba refineries is now 11 million barrels annually, and our production is approximately half that at present.

An indication of the activity in our mining industry for which Winnipeg is the supply headquarters, is the current development of International Nickel Co's, 175 million dollar mining project in the Mystery-Moak Lake area of Northern Manitoba. Other mines are being opened up in South East Manitoba as well as in The [illegible].

COMMUNICATIONS

In all media of communications, Greater Winnipeg is served well. The telephone system in the Province is provincially owned and operated. In the Greater Winnipeg district there were 220,117 telephones as of December 31, 1963. Seven radio stations operate in the Metropolitan area, five of them in the City of Winnipeg, one French language station in the City of St. Boniface and one station in St. Norbert.

Letter		Wattage	Frequency

	FM	75,000	94.3 megacycles

GRAPH SERVICE—

Telegraph service is supplied by the Canadian National Telegraphs, a subsidiary of the Canadian National Railways, and the Canadian Pacific Telegraphs, a subsidiary of the Canadian Pacific Railway.

Postal Service the Winnipeg district is within 24 hours time of most North American centres and about 24-48 hours the United Kingdom.

LICATIONS—

It is generally recognized that the Winnipeg area, with its heterogeneous population, is the Canadian centre for foreign language and the racial group publications. In addition there is a wide variety of weeklies, farm papers, magazines and trade organizations issued in conjunction with many phases of activity in the Province. Many of these publications have wide circulation in the Prairie Provinces as well as in other parts of the Dominion.

FURTHER INQUIRIES

The foregoing data shows that the cities and municipalities forming the Metropolitan area of Winnipeg have much to offer the industrialist and businessman who is considering the Western Canadian Market. In a publication of this nature, it is not feasible to give the wealth of detail and specialized data required by many industrial organizations. Interested firms may obtain such information from the **Department of Industry and Commerce, Norquay Bldg., Winnipeg,** or Metro Winnipeg Industrial Development Board.

Do your employers furnish you with the latest edition of the City Directory?

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

CAUTION....

Pay no money in advance to itinerant Directory Canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take advance payment for either advertising or subscriptions.

Mr. CITIZEN!

Correct Information Is Valuable To You!

Cooperate with the City Directory enumerators to see that your name and those of your family are correctly listed in each edition. **Your name, listed correctly in the City Directory is a great asset.** This has been proved thousands of times, especially in cases of employment application, proof of residence, questions relating to citizenship, applications for welfare assistance, distribution of mail, etc. Be better established . . . be on record as a local citizen by seeing that your name is not missed or incorrectly listed in the Directory.

Newcomers will find in MANITOBA

The Most Comprehensive Medical Benefit Plan on the Continent

Three out of four of the people in Metro Winnipeg and 52% of Manitoba's total population are enrolled in the Manitoba Medical Service.

More than 480,000 persons are members of Manitoba Medical Service. In 1963 M.M.S. rendered more than 2½ million services on behalf of its members through one of the following plans.

PLAN H

Provision for services of a legally qualified medical practitioner while a subscriber or dependent is a registered and admitted bed patient (in-patient) in a public general or extended treatment hospital. The range of services provided includes:

1. medical services—no limit on days
2. surgical services, including services of assistant surgeon when necessary
3. services for treatment of fractures and dislocations, burns and lacerations
4. maternity services
5. services of anaesthetist, when surgery or maternity is covered
6. services of consultant, when necessary

PLAN HC

In addition to services of Plan H, the full range of services included under Plan H when provided out of hospital, i.e., at the patient's home or at the physician's office.

This Plan also provides for a complete physical examination annually provided that the subscriber or dependent has not received such examination within 365 days.

PLAN HCX

In addition to the services of Plan HC, the following services when rendered in a physician's office:

1. X-ray services
2. medical treatment including immunizations, injections, allergy care
3. medical examinations and tests—including basal metabolism tests, heart tracings, brain tracings, ear tests, eye tests, etc.
4. laboratory services—including blood tests, gastric analysis, etc.

This Plan also provides for diagnostic services if such services are rendered on an out-patient basis in a public general hospital when other facilities are not available and when such services are not provided by the Manitoba Hospital Services Plan, or, in urban areas, when rendered in an emergency on an out-patient basis in a public general hospital when other facilities are not available and when such services are not provided by the Manitoba Hospital Services Plan.

Premiums vary according to marital status and the plan chosen. In the case of Group Plan HCX for instance, (preferred by 82% of those covered), the average group rate for a married man with children is $9.00 a month. Plans "H" and "HC" are proportionately lower.

Please! Do Not Lend Your CITY DIRECTORY

IT COSTS YOU MONEY—Every Time It Is Loaned

The practice of lending your City Directory, in a great measure, is responsible for the increasing cost of Directory Service.

The reason is:—

There is a definite cost involved in the making of the DIRECTORY of Your City.

THIS COST MUST BE ABSORBED BY THE SUBSCRIBERS—BE THEY ONE—OR BE THEY 1000.

If there were but ONE SUBSCRIBER to the CITY DIRECTORY—THE ONE SUBSCRIBER would of necessity have to absorb THE WHOLE COST.

If there were 100 SUBSCRIBERS—each one would have to absorb 1/100th PART OF THE WHOLE COST.

If there were 1000 SUBSCRIBERS—each one would have to absorb 1/1000th PART OF THE WHOLE COST.

From which it is obvious that the GREATER the number of subscribers—the LESSER the cost to each.

It is also obvious that the LESSER the number of subscribers—the GREATER the cost to each.

Every time you loan your City Directory the LESS NECESSITY THERE IS FOR THE BORROWER TO SUBSCRIBE FOR THE SERVICE.

MORE BORROWERS result in FEWER SUBSCRIBERS which means INCREASED COST.

CAUTION....

Pay no money in advance to itinerant Directory Canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take advance payment for either advertising or subscriptions.

Do your employers furnish you with the latest edition of the City Directory

?

You need it at your elbow at all times, to protect your company from forgers and bad - check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

THE *Investors* GROUP

. . . offering a complete range of investment management services

INVESTORS SYNDICATE OF CANADA, LIMITED

Face amount savings certificates — which provide for the guaranteed accumulation of a specific sum of money over a stated period and may be purchased either by a series of payments over a period of years or a single, lump-sum investment.

INVESTORS MUTUAL OF CANADA LTD.

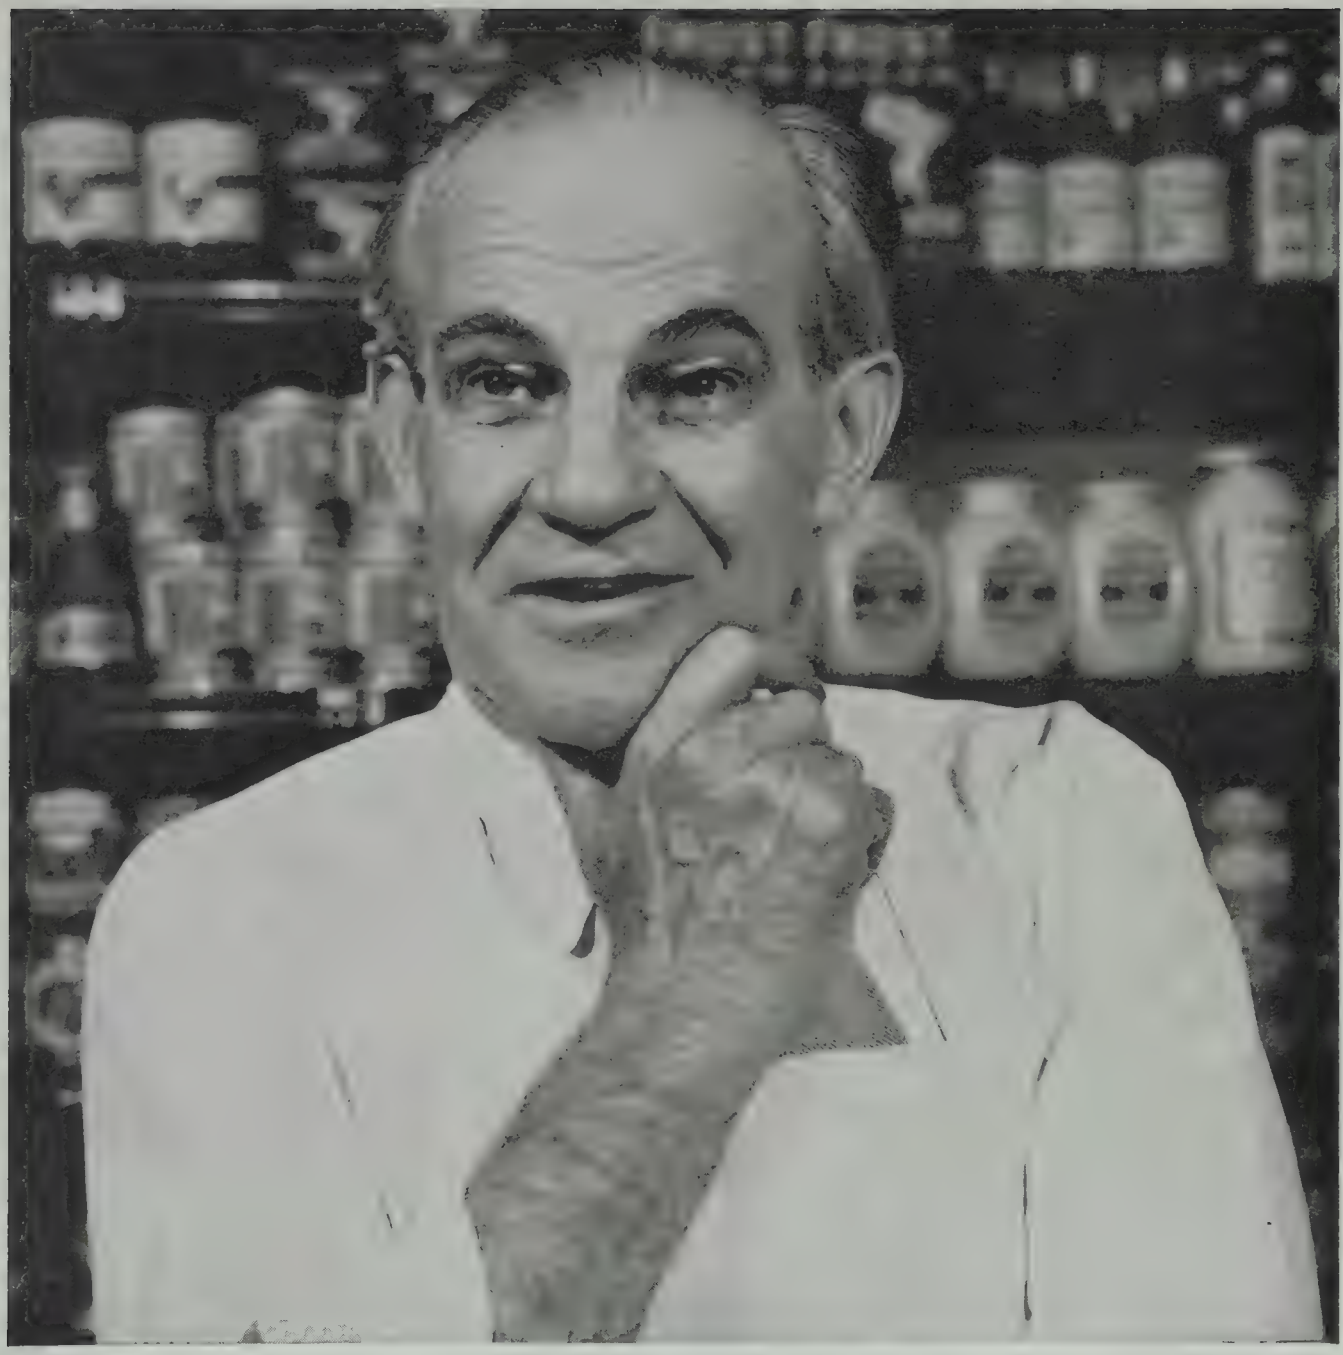
Maintains a "balanced" portfolio consisting of common and preferred stocks and bonds. The investment objectives of the Company are to provide shareholders with income through dividends, protection of invested capital and long-term capital appreciation.

INVESTORS GROWTH FUND OF CANADA LTD.

With emphasis on common stocks selected for their growth prospects, to provide for that portion of an individual's investment program which looks toward long-term growth of invested capital rather than the receipt of current dividends.

INVESTORS INTERNATIONAL MUTUAL FUND LTD.

Designed to give the investing public the opportunity to share, if they so desire, in the long-term growth potential of the international investment scene. The principal objective is long-term appreciation.



INVESTORS TRUST COMPANY

Offers complete trust and estate facilities with special emphasis on the administration, trusteeship and management of individual and group pension funds.

Investors services provide convenient, integrated, financial programs flexible enough to suit the needs of every Canadian. For complete details contact your Investors representative — *your best friend financially.*

Investors syndicate
OF CANADA, LIMITED

HEAD OFFICE: WINNIPEG OFFICES IN PRINCIPAL CITIES

How to get your money out of your business — and still own it

INVESTORS can help you perform this little bit of financial wizardry. Set aside one or two cents out of each dollar going through your cash register. Put it in an Investors plan and build up a substantial cash reserve. This growing reserve can be used to finance business opportunities—to help out in emergencies—to reward you on retirement. As time goes swiftly by, you'll discover that your Investors plan has enabled you to get your money out of your business—and you'll still own it.

The Man from Investors can show you several simple, profitable ways to build a cash reserve. Get the full story from Investors Syndicate. You'll find the number of the nearest office in the white pages of your phone book.

EXPLANATION

Wives names are listed with husbands, the name of the wife is shown in parenthesis following the husband's as follows: Gregory Richd M (Mary L).

In case of a widow by death, wherever possible the name of the deceased husband is shown in parenthesis as follows: Gregory Mary L (wid Richd M).

The occupation and place of employment is listed as follows: Gregory Richd M (Mary L) slsmn Starr Clothing Co.

Names in heavy type denote advertisers in this City Directory.

Ownership or co-ownership of a firm is indicated by showing the individual's name in parenthesis following the firm name, as follows: Carson Grocery Co (Geo B and Paul N Carson).

A firm name enclosed by parenthesis indicates ownership or co-ownership by the individual whose name precedes, as follows: Carson Geo B (Carson Grocery Co).

The head of the house is indicated by h preceding the street address; other members of the family and roomers are indicated by r preceding the street address.
